### YOUR BENEFITS

- ✓ Growth-oriented company
- ✓ Excellent development prospects and career opportunities
- ✓ Flexible working hours and the option for hybrid working
- ✓ Open, pleasant and family friendly working atmosphere
- ✓ Flat hierarchy and short communication ways
- ✓ Varied and responsible activities, exciting projects
- ✓ Family friendly environment with many team- and sports events

### YOUR PROFILE

- ✓ A Bachelor's or Master's degree in an Engineering discipline or a comparable discipline
- ✓ A minimum of 5 years experience in a similar role on interdisciplinary projects with complex engineering scope in the relevant sectors is mandatory
- ✓ Specific expertise in energy or electrical automation technology
- ✓ A certification in PMI or IPMA is beneficial
- ✓ Proficiency with standard MS Office applications, especially MS Project, Excel, Word, Teams and Outlook
- ✓ Willingness to occasional travels
- ✓ Handle challenges with a „Can-Do“ attitude

### YOUR RESPONSIBILITY

- ✓ Collaboratively work with Lead Engineers, Engineers, Designers and Supervisors to deliver both single and multi-discipline projects, from initial conception, through detailed engineering planning, and onto commissioning supervision
- ✓ Organize, plan, coordinate, and follow up on the Engineering scope of the project, ensuring that resources are allocated to the Engineering design Team
- ✓ Secure interface alignment between different disciplines and provide assistance to procurement during sub-supplier negotiations
- ✓ During the project's budgeting and quotation phase, prepare and present estimates, proposals, and calculations, as well as handle change requests
- ✓ Guarantee the timely delivery of all engineering documents and ensure comprehensive final documentation is in place
- ✓ Proactively conduct risk assessment and opportunity management
